TF6: Co-creation and co-governance

Bi-annual Work Plan

This template was produced by IUCN to facilitate the development of the Task Forces (TFs) bi-annual work plans. These work plans are aimed at providing a structured and forward-looking approach to the work of the specific TFs, to facilitate effective planning and execution of activities towards the contribution to their specific objectives. When developing the work plans, TFs should consider their updated description, overarching objectives and purpose, as well as their previous structure and potential changes to it (e.g. workstreams).

The template provides key questions to consider for developing a work plan, keeping in mind that these are not intended for precise and meticulous responses but rather to guide the TFs members' brainstorming and planning.

The bi-annual work plans of all TFs will be published on the [NetworkNature TFs page](#).

Time frame: Aug 2025 to Dec 2025

Bi- annual work plan	
<i>*Indicate compulsory responses</i>	
Priority objectives* <ul style="list-style-type: none">From the overall TF objectives, which ones will the TF focus on in the next 6 months?	Main objectives: <ul style="list-style-type: none">- Expanding the scope of co-creation – Focus on Multispecies aspect- Multispecies - humans and non-humans involvement in NbS co-creation:- Monitoring and evaluation of co-creation- Further testing the online co-creation DSS cross-TF collaborations) in relation to co-creation, co-governance and spatial planning- Connecting TF6 activities to other projects

<p>Implementation*</p> <ul style="list-style-type: none"> ● How will the TF contribute to the priority objectives within the indicated time frame? ● Will there be any workstreams created for this purpose? Please specify. 	<p>1. Expanding methods of co-creation – explore digital and art based tools to foster behavioural change and NBS co-creation, games, take stock of CES work and adapt to nonhumans, involve multispecies actors, involving human and non-human agencies (following Coevolvers approach)</p> <p>2. Specific meetings on cross-TF collaboration – exploring synergies between different TF activities and objectives – provide a list cross-TF priority</p> <p>3. DSS tool – final version online in 2026</p> <p>- Continuing workstreams to enable sub-group collaborations (e.g. a dedicated workstream on engaging stakeholders; a dedicated workstream on the use of the online tool; a dedicated workstream on spatial planning)</p>
<p>Products & activities*</p> <ul style="list-style-type: none"> ● What activities and/or products will the TF develop in the indicated timeframe to contribute to the priority objectives? ● Which is the target audience/ end user of the activity/ies and/or product/s? 	<p>1. catalogue of educational tools / tools for knowledge transfer for multispecies aspect</p> <p>2. Dedicated cross-TF meetings and cross-TF participation, TF members rotating participation</p>
<p>Outcomes</p> <ul style="list-style-type: none"> ● What measurable outcome/s is the TF aiming to achieve through the above-mentioned activities/ products? 	<p>1. catalogue of educational tools / tools for knowledge transfer for multispecies aspect</p> <p>2. Dedicated cross-TF meetings and cross-TF participation, TF members rotating participation</p>

<p>Potential enablers</p> <ul style="list-style-type: none"> ● What are the enablers for the delivery of the activities/ products (e.g. building on projects' outcomes, events, resources, etc.)? 	<ul style="list-style-type: none"> - Taking advantage of ongoing and planned projects work, eg– commonly excluded stakeholder workshop - Leveraging the work, already produced by the TF6 in the publication “Guidelines for co-creation and co-governance of NbS” and its recommendations, and the expertise gained by the TF members through this work as a foundation to upcoming work. - Utilising new Horizon projects as test beds for the Online Co-creation DSS
<p>Potential risks</p> <ul style="list-style-type: none"> ● Do you foresee any risks/ challenges? If so, how can they be overcome? 	<ul style="list-style-type: none"> - Risk of activities requiring too much effort and failing to achieve an equal and effective distribution of tasks. - Lack of interest, available time , also for cross-TF collaboration
